### APPELLATE COURT AFFIRMS RINI SENTENCE

**LAD CONVICTED  
IN DEATH OF  
ANANIA MUST  
SERVE LIFE**

Tribunal Upholds Com-  
mon Pleas Jury  
Verdict.  
**STABBING CASE**  
Police Charged Man  
Was Killed During  
Quarrel.

The district courts of appeals,  
meeting in Lisbon yesterday af-  
firmed the findings of the Col-  
umbiana county common pleas  
court in the conviction of Salva-  
tore Rini, East Liverpool, who is  
now serving a life sentence in  
the state penitentiary for second  
degree murder in the death of  
Pasquale "Patsy" Anania, Wells-  
ville.

**Ruling in Other Cases.**  
Anania was found dead with a knife  
wound through his heart in an apart-  
ment occupied by Rini in the Euclid  
Hotel building, Walnut street, about  
two years ago. Police charged that  
Rini killed Anania during a quarrel.  
Four other cases carried to the  
court of appeals were also affirmed,  
two were reversed and a seventh was  
certified to Jefferson county where  
it will be ruled upon.  
Cases affirmed were:  
Nathan Jones, Wellsville, convicted  
of arson in connection with an alleged  
attempt to fire his home.  
Angelo Volio against the state of  
Ohio in a case involving the city of  
Salem.  
Dan Pasco, Mary Fratilla and  
George Neago against the city of Sal-  
em.  
Mrs. May Morley Bryan and others  
against Jennie V. Imbrie for alleged  
property damage.  
The Salem Chattel company against  
Frank B. Whitman and others.  
An entry of dismissal was made in  
the cases of Edward W. Hall against  
Thomas Cadwallader and others and  
also that of J. B. Ketchum against the  
state of Ohio. The case of J. F. Har-  
ding against the city of Salem was re-  
ferred to Jefferson county.

WALL STREET was booming again  
Wednesday, dividing public interest  
in New York, with the opening of the  
baseball season.

NEW YORK, "where the money is,"  
once supplied nearly half the business  
of Wall Street. Now New Yorkers do  
only 10 per cent of speculating, 90 per  
cent is scattered throughout the coun-  
try.

THIS means a stock speculating  
craze is nationwide.  
Those that buy what they can pay  
for and keep it, may sleep soundly.  
But those gambling will worry,  
when the time comes, "and how," as  
the current saying goes.  
At present business is "stepping  
up." There is an improvement all  
along the line, and no storms are in  
sight.

JUGO SLAVS have added two new  
submarines to their naval equipment  
at Cattaro. It may interest you to re-  
member that the undersea boats are  
named "Netojsha" and "Hrabri."  
Many fighting Jugo Slav hydroplanes  
accompany the submarines to their  
base. Jugo-Slavia expects trouble  
from Mussolini.  
Uncle Sam, like the ostrich, has a  
better plan. He puts his head in the  
sand, counts his money and hopes for  
the best.  
WERE Mark Hanna alive he would  
be interested in the Illinois election  
and surprised to hear that his daugh-  
ter, Mrs. Ruth Hanna McCormick, is  
probably chosen congressman-at-large.

ON HOODOO DAY**  
CHESTER, Ill., April 13.—Fri-  
day, the thirteenth, held no bad  
omens for Joseph Bella, convicted  
slayer of Mrs. Julia Flaherty, for  
he will not die today.  
Bella was granted a reprieve by  
Governor Len Small following pre-  
sentation of an eleventh hour peti-  
tition of Bella's attorneys for a san-  
ity hearing, and subsequent re-  
commendation of such by the pa-

Granted Stay of  
Execution.**  
**INSANE, IS CLAIM**  
**Jury Will Decide  
Question Monday  
Morning.**

BENTON, Ill., April 13.—Friday,  
the thirteenth, the day when Charley  
Birger, leader of the most desperate  
gang in the criminal history of Illi-  
nois, was to have walked up 13 steps  
to a scaffold and be hanged, proved  
utterly impotent as a flax when the  
courts today granted a last-minute  
stay of execution until next Tuesday  
morning.  
Attorneys for Birger late last night  
filed an insanity petition, invoking  
that section of Illinois criminal law  
which prohibits the dealing of capital  
punishment to those of unsound mind.  
A jury to decide on Birger's  
sanity is to be assembled next Mon-  
day morning. In case the proceedings  
require more time, Birger's execution,  
now set for next Tuesday may be  
stayed until a later date. In the event  
he is found insane, Birger would be  
sent to the state asylum at Chester.  
"It's a break," he remarked when  
notified in his cell of the court's ac-  
tion. "But at that I'd rather be hanged  
than spend the rest of my life with  
the nuts at Chester."

**WILMA LE VAN  
HERE TONIGHT**  
Enroute to Lisbon, where she will  
speak, Mrs. Wilma Sinclair Le Van,  
Steubenville, national Republican com-  
mitteewoman for Ohio, and candidate  
for delegate-at-large to the Kansas  
City G. O. P. convention, will stop in  
East Liverpool for a short time to-  
night. Mrs. Le Van will speak briefly  
to local women voters at the Carnegie  
Library at 7:30 o'clock. All Republi-  
can women are invited.

**BANQUET MONDAY  
AT COLUMBIANA**  
Attorney S. W. Crawford of this  
city, Appellate Judge L. T. Farr, Lis-  
bon and Congressman Martin Dacey,  
Kent, will be the speakers at a ban-  
quet celebrating the opening of Col-  
umbiana's new white way in the Re-  
formed Presbyterian church, at Colum-  
biana, at 8 o'clock Monday evening.  
The celebration is being sponsored by  
the Columbiana Board of Trade.

AT PITTSBURGH**

Hiram W. Evans  
Testifies in Damage  
Suit.  
**SURPRISE MOVE**  
Witness Denies he In-  
spired Riot at  
Carnegie, Pa.

PITTSBURGH, April 13.—The Ku  
Klux Klan's \$500,000 damage suit  
against five banished Pennsylvania  
members in federal court here entered  
its closing states shortly before noon  
today when the Klan rested its case  
and closing arguments were begun by  
Van A. Barlickman, counsel for the  
banished group.

Hiram A. Evans, imperial wizard of  
the Klan, testified that as the head  
of "a patriotic organization, military  
in form," he never made anti-Catholic  
speeches, nor inspired the riot at Car-  
negie, Pa., several years ago in which  
one man lost his life.  
He denied that Negroes or whites  
were burned to death in Terrell, Tex-  
as, as charged by Charles Ludlow, of  
Dallas, Texas, the banished klan-  
men's chief witness.  
Judge W. H. S. Thomson limited  
the opposing counsel to 45 minutes  
each for their closing argument.  
Evans was confronted with a mem-  
ber of the black robed order in full  
regalia, shortly after he stepped from  
the stand. Evans had denied that  
this organization was a branch of the  
Klan, but Will G. Seasholtz, of Phila-  
delphia, who donned the robes, pro-  
duced a document purporting to be  
an authorization from Paul Winters, of  
Philadelphia to reorganize what he  
termed a "black robed gang" in that  
city.  
This organization, which was to be  
under the auspices and a part of the  
Klan, he said, was to "operate in a di-  
rect manner."

Minneapolis Chapter of the D. A. V.'s in presenting her \$250,000 estate at  
Grossmont, Cal., of disabled war veterans as a "rest home." Six years ago in  
Minneapolis the veterans drank a silent toast to two sons the famous singer  
lost in the war—one on the American side and one on the German.

KILL ANOTHER**

Unidentified Man's Body  
Found in South  
Chicago.  
CHICAGO, April 13.—That gang-  
land guns had boomed out another  
deadly serenade was evident today  
with the finding of a man's body on  
an isolated prairie in South Chicago.  
The body was that of an unident-  
ified man, aged about 50. The scene  
was scarcely a stone's throw from  
where bandits recently held up a  
Grand Trunk mail train and escaped  
with \$123,000.  
The body showed three bullet  
wounds.

HALIFAX, N. S., April 13.—  
Reports that the trans-Atlantic  
plane Bremen, flying from Dub-  
lin to New York, had been sight-  
ed over Nova Scotia this morn-  
ing were received here at noon  
from Lunenburg and Kingsport.  
The report believed most likely to  
be authentic came from Captain Bark-  
house of the Canadian government  
fisheries steamer Arras, on patrol  
duty off the south coast of Nova  
Scotia. Captain Barkhouse stated that  
he sighted a plane flying high shortly  
before noon, and is convinced it was  
the Bremen.

**Proceeding Down Coast.**  
BOSTON, April 13.—Unconfirmed  
reports that the trans-Atlantic mono-  
plane Bremen was proceeding down  
the Nova Scotia coast were received  
here this noon.  
The first from Nova Scotia had it  
that a steamship captain reported by  
wireless that off Kingsport, N. S., he  
heard the drone of a motor but was  
unable to see an airplane.  
A short time later, Yarmouth, N. S.,  
reported a plane off the coast.  
Inquiry at Quaddy Head coastguard  
station, near Eastport, Maine, below  
Yarmouth, brought the information  
that no plane had been heard or seen  
there. All the trans-Atlantic flyers  
outward bound have passed Quaddy  
Head.

Coastguard cutters and stations  
along the entire seaboard were on the  
watch but the plane was not sighted.  
Naval officials at Charleston Navy  
yard called in naval tug Iuka and pro-  
visioned her and oiled her with  
enough food and fuel for a two  
weeks' stay at sea. It was explained  
that the preparation of the Iuka was  
merely a precautionary measure in  
event a naval tug was needed.

**Sighted at Kingsport.**  
MITCHEL FIELD, N. Y., April 13.  
—A persistent report was current here  
at 11 o'clock that the German trans-  
Atlantic plane Bremen had been sight-  
ed over Kingsport, Nova Scotia, at  
10:45 a. m. (Nova Scotia time, or 9 a.  
m., Eastern Standard time), flying in  
a southerly direction. Kingsport is  
about five hours flying time from  
Mitchel field.

It was estimated that, if the plane  
sighted at Kingsport really was the  
Bremen, and was able to maintain its  
best speed, it should reach here be-  
tween 2 and 3 o'clock this afternoon.  
Kingsport is on the Minas basin, 53  
miles north by northwest of Halifax.

**Wall Street Hears Report.**  
NEW YORK, April 13.—A Wall  
Street ticker service today carried a  
report from Kingsport, N. C., that  
Capt. Moorehouse, of the Canadian  
government steamship Arras reported  
he had sighted an airplane believed to  
be the Bremen over Kingsport, Nova  
Scotia at 10:30 a. m. (Atlantic Stand-

### Rent for Eiffel Tower Given Boost By City of Paris

PARIS.—Rents in Paris are now going up as high as the sky. In fact, they now reach the top of the Eiffel Tower. The society in charge of the world-famous structure has recently been informed by the City of Paris that it will be obliged to pay five thousand more francs rental per year or find other quarters.

The city explains this rise in rents because of the increase in the value of land together with other costs of living in the capital.

### Widow of Famous Composer, Edward Greig, Raps Jazz

COPENHAGEN.—Madame Nina Greig, widow of the celebrated composer, Edward Greig, recently gave a concert in this city. She is now 82 years old and for many years was known to be a fine singer. Later she took up the study of piano and, although she became a remarkable performer, has given but two public concerts during her long lifetime; the first one was more than 62 years ago. "Modern jazz music is terrible," says Madame Greig, "and I don't see how it can live at all. Of course we old people are always talking about the good old things in the good old times, but certainly music was superior when Greig and I were young."

### MUSKINGUM COLLEGE MEN'S GLEE CLUB WILL VISIT HERE SUNDAY

The Muskingum College Men's Glee Club which began Monday in Wheeling, club will visit East Liverpool next Sunday and Monday, appearing both nights in the First United Presbyterian church, Sixth and Jefferson streets.

Six western Pennsylvania, eastern Ohio and West Virginia cities are on the itinerary of the club in the tour Monday evening.

The singer are directed by Prof. Thomas H. Hamilton, director of Muskingum College conservatory of music. They have taken part in the inter-collegiate glee club contest for three years and have given concerts in Zanesville, Cambridge and other nearby places.

The program will be featured by sections by the college quartet, renderings and chalk talks by H. Kenneth Carmichael. Instrumental music, in which the xylophone, violin, clarinet and piano foursome will be used, are included in the program.

William Ogilvie, son of Mr. and Mrs. D. M. Ogilvie, McKinnon avenue, is a member of the quartet and also manager of the glee club.

## SPRING IN THE AIR, AND NEW SPRING THINGS ARE READY AT OGILVIE'S

### Silks for Commencement Frocks

In the spring the girl graduates' thoughts turn to the commencement trousseau. And if she is to have her frocks made, now is the time to choose the fabrics. Graduation isn't very far off—and every girl will want her wardrobe ready at least a week in advance.

Our silk stocks are large and complete, containing silks suitable for every commencement festivity.

For Baccalaureate we have an extensive array of white silks, for sports frocks—or more elaborate costumes.

Washable Crepe De Chine—\$2.00.  
Trevorton Crepe—\$2.75.  
Skinner's Washable Crepe—\$3.00.  
Pussy Willow Taffeta—washable—39 inch width—\$3.00.  
Beldings' Satin Crepe—\$3.00.  
White Brocade Crepe—\$3.50.  
Crepe Faille—\$4.00.  
Satin Crepe—\$4.00.

One of the most popular silks for sport's wear is the genuine Rajah. In oyster white—Priced at —\$2.25

Georgette in pure white—priced at \$2.25 and \$3.00 the yard.  
Crepe Chiffon—\$1.65.

For the Junior-Senior Reception or graduation we are showing georgettes and taffetas in the loveliest of shades. These can be made into the daintiest frocks imaginable.

Georgettes are 39 inches wide and priced at \$2.25 the yard. Choose coral, pink, mai, ocean green, Marie Antoinette, honeydew, orchid, Brittany blue and Jack Rose.

Crepe Chiffon fashions a slim-looking, clingy frock. We have rose petal, champagne and orchid priced at \$1.65 the yard and \$2.00.

Buffant skirt and basque waist frocks are the vogue for girl graduates, for they are the embodiment of youth. Taffeta in changeable tones serves best for this style of frock. Our display includes blue and gold, coral and gold, pink and mai, orchid and gold, blue and rose, blue and pink and green and gold and other color combinations. Priced at \$2.00 the yard.

A splendid assortment of plain taffetas which are just as attractive as the changeable. Priced at \$2.35 and \$3.00 the yard.

Pompadour taffeta with its pastel colored backgrounds and lovely floral designs makes unusually effective frocks for semi-formal and formal wear. Mai, Nile green and honeydew backgrounds. \$2.75 the yard.

Washable crepes can be made into any sort of frock—from the sports model to a formal frock. They are extremely serviceable and will still be in use after graduation is forgotten. An extensive array of colors. Newest shades of blue, green, tan, with pink, French beige, rose beige and wild raspberry are the most sought after colors for the new season. Price — \$2.00 and \$3.00 the yard.

A good selection of Rajah Sports Silks for general wear. Blossom, cornflower, powder blue, grey, tan, creole, jade green, navy blue, June rose and copper. \$2.25 the yard.

Heavy Brocade Satin—39 inch width—\$40.50 the yard.

### Fire Prevention Appeal

State Fire Marshal Louis F. Miller today appealed for the co-operation of civic and service organizations, women's clubs and boy and girl scouts and the public generally in a fire prevention campaign during the last week of April or early in May. He has asked mayors to issue proclamations designating a period for a thorough clean-up.

Anticipating this action, the East Liverpool board of health has designated the period from May 7 to May 21 for a general attack on basements, attics, closets and similar places, where, as the fire marshal points out, rubbish and other combustible materials are allowed to accumulate.

In the interest of safety and health, the Ceramic City plans spring house cleaning. And city trucks, through the co-operation of the service department, will cart away all rubbish, except ashes, which is deposited in receptacles in alleys or streets during the three-week campaign.

Fire Chief Thomas Bryan is expected to head the suggestion of the fire marshal regarding an inspection in the business district during the clean-up drive. And in this way fire hazards, overlooked by tenant, should be removed.

Let's join hands in this movement for the mutual advantage of fire prevention, public health, child welfare and general civic improvement. It will make East Liverpool a safe place in which to live.

### Reminders of De Soto

Reports of the discovery of traces of Hernando De Soto's famous treasure expedition in a little town in North Georgia will excite interest among archaeologists and students of American history.

The find, the information indicates, consists of an iron sword amid a score of skeletons and ceremonial relics which Dr. Moorehead of Phillips Academy, Andover, Mass., declares are of a pre-Columbus period. Whether they will ultimately be accepted as genuine specimens of those early days remains to be seen, but in the meantime it is certain that the Indian mounds of northern Georgia are giving up many reminders of past ages.

At first glance they would seem to be out of the path of the Spanish expedition, but in any event they serve to call attention to one of the really colorful episodes in the early days of America.

De Soto, one of the Spanish noblemen who became an explorer and conqueror, shared in adventures along the Nicaraguan coast as early as 1523. He returned to Spain, but what he had learned here filled him with the belief that the southern part of this country was filled with treasure which could be compared only with the riches of Peru.

Then it was that De Soto sold all his possessions, equipped ships and armed men, and started on a voyage of conquest. Charles V gave him the title of Governor of Florida and Cuba. He landed at Santiago de Cuba and established a government on the island, but in Florida he met with resistance from the natives, who were killed by the thousands.

Florida is marked throughout with relics of De Soto's conquering visit. Particularly is this so in the northern part of Florida.

During one of his engagements with the natives in Florida, De Soto was wounded, but pressed into the interior. It was when he headed for what he called New Spain, which now is Mexico, that he became ill and died.

If the world now is to accept the opinion and claims of the present-day archaeologists, De Soto then must have touched on the border of north Georgia in the earlier course of his travels.

The story of how De Soto's followers hollowed out the trunk of an evergreen tree for a coffin, and weighted it with armor and sank it in what is now the Mississippi river, is a story with which most school boys are familiar.

### Short And Ugly Word

Far be it from anyone at this distance to take a hand in the fiery controversy now agitating the more or less august senate concerning the precise language used by Secretary Work in differing with a visitor from Texas at his office.

While the secretary has a reputation for courtesy, as well as veracity, it is perhaps too much to expect the senators from Texas not to accept the version of a fellow Texan and a Democrat, against that of the secretary, who has the double disadvantage of being from Colorado and a Republican.

This incident merely is used as an opportunity to recall the admonition of the Frenchman regarding what he felt was needless Anglo-Saxon frankness.

"But what the man said was a lie and I told him so," protested the American who was being admonished. "What would you have said?"

"Nothing so brusque as that," the Frenchman replied. "I would have said: 'What you say, monsieur, is undoubtedly correct, but, mon dieu, it is impossible.'"

### Sandino's Suggestion

An American correspondent who has had better luck in reaching Sandino than the marines have had, reports that the Nicaraguan rebel bandit, or what you will, is in agreement with the United States government on one important point. He wants the coming election in Nicaragua supervised by outsiders. He disagrees with our government on a rather essential detail, however. He doesn't want our marines to do the supervising. Instead, he suggests it should be done by representatives of other Latin-American states.

It is a suggestion that appeals to a great many Americans who feel keenly the fact that while technically our country is at peace with Nicaragua, our marines are actually at war with certain Nicaraguans.

It is an embarrassing and unpleasant situation. It would be hard to find anybody in this country or anywhere else who gets any real satisfaction out of it. Advice and help from some of the other American republics might be a tremendous relief to Uncle Sam.

## HASKIN DAILY LETTER

By Frederick J. Haskin

WASHINGTON, D. C., April 13.—The Children's bureau under the United States department of labor says that this year May Day will be celebrated as Child Health Day on a greater scale than ever before.

Schools, playgrounds, hospitals, community centers, Catholic, Protestant, and Jewish churches, clinics, and libraries—in fact, all organizations endowed or supported by the public are making plans to take part in the celebration in a modern way of a day that historians know was a festival of the old Romans. Physicians' and dentists' societies, department stores, and even the movies are going to cooperate, either by giving their services, or by putting across propaganda, the goal of which, according to the American Child Health association, is a year-round community child health program.

Miss Helen N. Smith, head of the department of physical education of the University of Cincinnati, is an advocate of "Play Days" throughout the year with May Day-Child Health Day as the day of days. Under her system play days give students the opportunity for the joy of social contacts with other students outside of their own small groups; they satisfy the desire for the competitive without the detrimental effect of the older type of varsity competition; they develop good sportsmanship, good fellowship, good leadership, initiative, and loyalty. They are just what their name signifies, days of play for play's sake, and they draw every one into the fun. No one is inactive or watches from the sidelines; every one plays.

She suggests a program for rural communities on the first of May which includes relay races, dodge and volleyball, folk dancing, individual challenges—which do away with the outlooker and make every student a participant whether in playing "jacks" or shooting marbles—posture parades, cheering, and singing.

City schools vary the program slightly according to the equipment they possess. In some cases it is possible to have swimming meets.

The foregoing programs have been for children of school years, but the crusaders for May Day-Child Health Day are not limiting their campaigns to any one age. Children of preschool age, and even tiny infants are included in the endeavor to give them their birthright of buoyant health.

Baby shows, free clinics, wholesome, instructive, but entertaining movies, the display of books of that kind by librarians, and the window advertising of department stores are all means employed in the drive on pale and sallow complexions.

In Washington there will be no holiday because May Day falls on a Tuesday this year, but under the direction of Dr. E. J. Schwartz, Assistant Health Officer of the District of Columbia, a Child Health Day will be made possible. All the school work on that day will bear on health. Compositions will have various phases of that subject for their themes, art work will have the same inspiration, and even the morning Bible reading will include appropriate scripture.

Members of the District Dental Society will give free dental treatment to children brought to them on that day, and health examinations will be given free at all child welfare and health centers.

A May Day conducted on these principles is as far in advance of activities from the early May Days as it is in time, although the same desire of celebrating the renewal of life in the spring is the undercurrent.

### Questions And Answers

By Frederick J. Haskin

Did you ever write a letter to Frederick J. Haskin? You can ask him any question of fact and get the answer in a personal letter. Here is a great educational idea introduced into the lives of the most intelligent people in the world—American newspaper readers. It is a part of that best purpose of a newspaper—service. There is no charge except two cents in stamps for return postage. Address: Frederick J. Haskin, Director, the East Liverpool Review Information Bureau, Washington, D. C.

Q. From what animal is the hide taken to make very large bass drums? C. M. I.

A. Steer or cow hides are used in the manufacture of the larger size bass drum heads, calf on the smaller. A large manufacturer of drums says: "We had occasion to make an exceptionally large drum, in fact the largest which was ever constructed, some years ago for the University of Chicago. This drum measured 8 feet and some inches and the skin which was used for the head of this drum measured, when trimmed ready for mounting, 102 inches. Our order for this drum called for as large a bass drum as possible by the size of hide which the drum was determined by the size of hide which was available at that time. Our purchasing department made a trip to the Union Stock Yards of Chicago—spent three days at the Stock Yards looking over the cattle for these hides and, as the bass drum had two heads, it was necessary to find two just alike. The actual cost of this instrument to us—in other words our factory cost—was \$1100 which cost included special tools required in the manufacture of this instrument."

Q. On what days during 1928 will eclipses of the sun appear? E. M. H.

A. The United States Naval Observatory says that eclipses of the sun in 1928 occur as follows: May 19, visible in the southern parts of Africa and South America. June 17, in the northern parts of Europe and Asia. November 12, in parts of Europe, Asia, and Africa.

Q. What are the three largest land-owning countries in the world? V. M.

A. The British Empire covers more territory than any other country in the world, comprising 13,226,749 square miles. The area of Russia in Europe and in Asia is 8,187,253 square miles. France and her colonies comprise 5,870,461 square miles.

Q. Can you inform me when the ancient Egyptians ceased embalming their dead? C. N. S.

A. Doctor Walter Hough, Head Curator of Anthropology, Smithsonian Institution, states that embalming by the Egyptians ceased about the end of the 4th century, A. D., because of the spread of Christianity; that the Christians did not embalm the dead as the Egyptians did, but did wrap them in cloth robes.

Q. How may bluing be made at home? J. L. H.

A. To make bluing dissolve indigo sulphate in cold water, and filter.

They are just what their name signifies, days of play for play's sake, and they draw every one into the fun. No one is inactive or watches from the sidelines; every one plays.

She suggests a program for rural communities on the first of May which includes relay races, dodge and volleyball, folk dancing, individual challenges—which do away with the outlooker and make every student a participant whether in playing "jacks" or shooting marbles—posture parades, cheering, and singing.

City schools vary the program slightly according to the equipment they possess. In some cases it is possible to have swimming meets.

The foregoing programs have been for children of school years, but the crusaders for May Day-Child Health Day are not limiting their campaigns to any one age. Children of preschool age, and even tiny infants are included in the endeavor to give them their birthright of buoyant health.

Baby shows, free clinics, wholesome, instructive, but entertaining movies, the display of books of that kind by librarians, and the window advertising of department stores are all means employed in the drive on pale and sallow complexions.

In Washington there will be no holiday because May Day falls on a Tuesday this year, but under the direction of Dr. E. J. Schwartz, Assistant Health Officer of the District of Columbia, a Child Health Day will be made possible. All the school work on that day will bear on health. Compositions will have various phases of that subject for their themes, art work will have the same inspiration, and even the morning Bible reading will include appropriate scripture.

Members of the District Dental Society will give free dental treatment to children brought to them on that day, and health examinations will be given free at all child welfare and health centers.

A May Day conducted on these principles is as far in advance of activities from the early May Days as it is in time, although the same desire of celebrating the renewal of life in the spring is the undercurrent.

Q. From what animal is the hide taken to make very large bass drums? C. M. I.

A. Steer or cow hides are used in the manufacture of the larger size bass drum heads, calf on the smaller. A large manufacturer of drums says: "We had occasion to make an exceptionally large drum, in fact the largest which was ever constructed, some years ago for the University of Chicago. This drum measured 8 feet and some inches and the skin which was used for the head of this drum measured, when trimmed ready for mounting, 102 inches. Our order for this drum called for as large a bass drum as possible by the size of hide which the drum was determined by the size of hide which was available at that time. Our purchasing department made a trip to the Union Stock Yards of Chicago—spent three days at the Stock Yards looking over the cattle for these hides and, as the bass drum had two heads, it was necessary to find two just alike. The actual cost of this instrument to us—in other words our factory cost—was \$1100 which cost included special tools required in the manufacture of this instrument."

Q. On what days during 1928 will eclipses of the sun appear? E. M. H.

A. The United States Naval Observatory says that eclipses of the sun in 1928 occur as follows: May 19, visible in the southern parts of Africa and South America. June 17, in the northern parts of Europe and Asia. November 12, in parts of Europe, Asia, and Africa.

Q. What are the three largest land-owning countries in the world? V. M.

A. The British Empire covers more territory than any other country in the world, comprising 13,226,749 square miles. The area of Russia in Europe and in Asia is 8,187,253 square miles. France and her colonies comprise 5,870,461 square miles.

Q. Can you inform me when the ancient Egyptians ceased embalming their dead? C. N. S.

A. Doctor Walter Hough, Head Curator of Anthropology, Smithsonian Institution, states that embalming by the Egyptians ceased about the end of the 4th century, A. D., because of the spread of Christianity; that the Christians did not embalm the dead as the Egyptians did, but did wrap them in cloth robes.

## NEW YORK Day By Day

By O. O. McIntyre

NEW YORK, April 13.—Thoughts while strolling: Ladies with long colored handkerchiefs dangling from their sleeves. The comedians of the Coffee Pots. Furtive old men who spear ships in gutters. Some day the world will take care of its aged poor. I hope soon. There's a reason.

The Eaton sisters—Pearl, Doris and Mary. Each in a Broadway show. Those dandified fellows who turn out to be restaurant waiters. The wait-line is coming back. Grinning, chubby fellows who carry musical instrument cases. The cafeteria that gives each customer a package of cigarettes.

Bide Dudley's beautiful wife. A 46-chair barber shop. Preliminary boys with twisted noses and noisy muffers. A Chinese girl using her lipstick in a limousine. Grace Moore, another American girl to sing at the Metropolitan. There should be more.

Those huge windows lined with plush and displaying only one article. Restaurant signs: "Wanted—brunette waitresses." Three blondes! The young 5th avenue cop who looks like Lindbergh. The defence New York shows cripples. An organ grinder with his monkey collects a bigger crowd than they would in Gallipoli, Ohio.

One of the Carnegie boys—Charles M. Schwab. Those glossy paintings on jazz band bass drums. A blues singer in an imported car. Gray skies. Ring the basement-buzzer speakies. Cobblers who look out their cellar windows over half glasses.

Long pointed finger nails. Gentlemen trying to walk a straight line but swaying a little. What's become of the servant question? Father Cashin. Purses from Paris—made in Hoboken. I'm tired of hearing about the Astaires dancing. There are a few other dancers. Harriet Hootor, for instance. Or Will Mahoney.

A rich young man at a drug store sandwich counter. That will not help him socially. The old timer who drives about Broadway in a huxy with one foot over the dashboard. Those apple cake and fresh milk stands. A man roller skating on a roof cornice—just to hallyhoo a rhnk.

The dream of every vaudeville artist is to play a week at the Palace. That insures many weeks of work if they make good. The Monday afternoon audience is reputed to be the toughest in the world. The critics are there as well as show scouts, agents, song pluggers and such. The attitude is dare-you-to-make-me-applaud. And it is tragic to see performers who fall walk off the stage in almost complete silence. The late N. A. Bayes was probably the supreme favorite of Palace audiences.

A character around Broadway is a former stunt man of the movies. He jumped over cliffs in parachutes, leapt from trains to autos and otherwise risked his life to provide thrills. His skull has sustained three fractures and today his mind is clouded. He wanders about the cafes and speakies talking incessantly of dare-devil exploits. Hollywood has many. They are called "crash crazy."

It is astounding how many are willing to risk their necks for a small fee. Not so long ago a call went out from a movie casting agency for a man willing to go hand over hand on a rope stretched from the top of two skyscrapers. There were more than 200 applicants who admitted they had no skill in gymnastics but were willing to take the chance. The fee was \$150.

I once made the acquaintance of one of those human flies who crawl their perilous way up the side of tall buildings. His career was the result of that childhood game called "Follow the leader!" He discovered he could make more progress climbing buildings than other boys and all his spare time was spent improving himself. It offered such a thrill that ordinary work seemed commonplace and he became a professional. One day he lost his hold.

Subway crashes continue at the rush hour. It is said an average of 50 hats are smashed a day. One of my reasons for not riding in the subway, I cannot do without my hat. As you may have noticed, I need it to talk through.

# WELLSVILLE PLANS CITY SEWER SURVEY

## LACK OF TRAPS REPORTED IN ONE ZONE HERE

City Officials Fear Damage of Serious Nature.

### ORDER CHECK-UP

Bushel of Coal Found in Clogged System.

Fearing damage of a serious nature to the Wellsville sewer system as a result of conditions revealed by service department employees who have been working in the west end of the city, Mayor Wallace L. Fogo and Director George B. Imbrie have authorized a city-wide survey of sewage

equipment in homes and business houses. Lack of traps, screens and other necessary equipment has produced conditions in at least one district in the city which, if continued, possibly would cost the city thousands of dollars in repair work, time and labor, municipal authorities said today.

A force of men have been working in the Eleventh-Fourteenth street territory for several days following reports of clogged sewers.

Out of one sewer the workmen produced probably a bushel of coal, as well as sticks and other debris which had found its way into the underground system as a result of, officials say, lack of protection for pipes.

### POLICE DANCE SATURDAY NIGHT

Wellsville police have completed arrangements for their dance to be held on Saturday night in the auditorium of the city hall building, Fifth and Main streets.

Music will be in charge of DeMar Miller's orchestra of East Liverpool. One of the features of the program will be a prize waltz.

## Nab Suspect in Death Of Steubenville Cop

Police Lieutenant Scott Succumbs to Injuries Sustained at Patrolmen's Annual Ball.

Following the death of Police Lieutenant Scott Roe, 50, in a hospital here last night, Angelo Tamburra, 23, who is alleged to have thrown him down a flight of stairs at the annual policemen's ball here, Wednesday night, today faced charges of first degree murder.

Tamburra and another youth, Frank Roman, 25, of Patterson, N. J., became unruly at the ball and Lieutenant Roe attempted to eject them, according to the account of the affair given by police. Tamburra then rushed at the officer, struck him and shoved him down the stairs, they related.

Lieutenant Roe struck his head at the bottom of the flight, suffering a fractured skull. Tamburra and Roman were arrested a short time later and Tamburra is said to have confessed that he had "a few drinks" and that it was he who had dived into the officer, throwing him down the steps.

## MUSIC CLUB CONCERT HERE

Capacity Audience Hears Program in Church.

Performing before a capacity audience in the First Christian church, members of the Wellsville Music club, appearing in their annual spring concert, last night delivered one of their most successful musical offerings in years.

In contrast to their selections of previous years, the club's program last night was made up of a miscellaneous collection of vocal and instrumental numbers.

Opening with an organ and piano duet by Miss Mildred Armstrong and Mrs. Lester Donnelly, the program was well rendered to the final number.

Violin selections were given by Frank Nyiro and Paul Katz. Charles Boyd appeared advantageously in several cornet selections and Miss Martha McClelland drew encores following her cello solo, "The Old Refrain."

Rev. D. E. Young, pastor of the Christian church, appearing with the club for the first time, sang two baritone solos, "Old Pal" and "Sunshine of Your Smile."

Mrs. Oliver Cummings' organ selections were especially well received as were the numerous chorus numbers.

### OPEN CLASS PLAY TICKET SALE

Robert Trumbull, of the high school faculty, in charge of business arrangements for the Senior class play on Thursday and Friday, April 26 and 27, today announced preliminary plans for the distribution of tickets.

General admission tickets were placed on sale today at 50 cents each. The reserved seats will go on sale on Monday, April 23, at 60 cents. In addition a canvass of homes will be made by students.

Miss Catherine Satow and Earl Eschbacher have been cast in the lead roles for the playlet, "The Whole Town's Talking," which will take the form of a farce-comedy. Twelve Seniors will make up the cast.

### FIRE MARSHAL OPENS INQUIRY

Fire Marshal Connor of Youngstown, called to Wellsville by police and fire authorities following the recent blaze at the Perry property in Washington avenue, yesterday began an investigation of circumstances and conditions surrounding the fire which caused a \$1,600 loss.

Connor will visit the schools and take care of other details that may be brought to his attention while in the city.

### PRESBYTERY WILL MEET APRIL 16

Rev. K. J. Stewart, pastor of the Yellow Creek Presbyterian church and stated clerk of the Steubenville presbytery, today announced the spring meeting of the presbytery will be held on Monday afternoon, April 16, at 2 o'clock at Smithfield.

Rev. Stuart Nye Hutchinson, D. D., of the presbytery of Pittsburgh, will preach on Monday evening. Henry Reichel of Youngstown will discuss "Evangelism" on Tuesday morning at 11 o'clock.

### Miss Agnes Smith Funeral.

Funeral services for Miss Agnes Smith, who died Wednesday at her home two miles west of Highlandtown on the Wellsville-Salineville road, were held this afternoon at 1:30 o'clock at the late residence in charge of Rev. H. C. Foster of the Bethel church. Burial was made in Yellow Creek cemetery.

53 to 23.

By George R. Holmes.  
WASHINGTON, April 13.—The bat-  
tle-scarred McNary-Haugen farm bill  
was headed straight for President  
Coolidge's desk today notwithstanding  
the warning signals hoisted against  
it by the White House.

Its passage in the senate by the sur-  
prising vote of 53 to 23 was accom-  
plished under the adroit generalship  
of Vice President Charles G. Dawes,  
ably assisted by those who do not  
want to see Herbert Hoover nominated  
for president.

It now goes to the house, where its  
passage also is considered assured. Its  
sponsors hope to have it deposited  
on the White House doorstep by May 1.

"I do not think it will take us long  
to reach a decision," said Representa-  
tive Haugen (R) of Iowa, co-author  
of the bill.

**Veto Is Expected.**  
That a veto awaits it at the White  
House is universally accepted in  
Washington. The president vetoed  
the bill a year ago, denouncing it as  
a few presidents have ever denounced  
any legislation. Since that time num-  
erous changes have been made in it to  
meet presidential objections, but the  
equalization fee, of which Mr. Coolidge  
particularly disapproved, remains in  
it.

It is questionable whether the mea-  
sure can be passed over a presidential  
veto. The senate vote indicated that  
it can be, but with the full mem-  
bership of the senate present and voting  
it might be a different story. Also,  
while the bill is assured of passage  
in the house by a substantial majority,  
it is doubtful whether two-thirds of  
the full membership could be mustered  
for veto duty.

The Coolidge veto is calculated to  
be embarrassing to the Hoover candi-  
dacy.

Hoover disapproved the bill a year  
ago, along with Secretary of Agricul-  
ture Jardine, and Secretary of the  
Treasury Mellon. The presumption is  
that he, like Mr. Coolidge, also dis-  
approves this year's bill, for in his an-  
nouncement of candidacy the cabinet  
candidate pledged himself to the con-  
tinuance of Coolidge policies.

On the other hand, his two chief  
rivals for the nomination, Vice Presi-  
dent Dawes and Frank O. Lowden,  
wholeheartedly approve the measure.  
**Jardine Comes To Hoover's Aid.**  
A presidential veto, therefore, is not  
calculated to increase Hoover's stand-  
ing in the vast grain-belt, which al-  
ready is the weakest spot in his po-  
litical armor.

Today Secretary of Agriculture Jar-  
dine came to Hoover's aid with a let-  
ter denying whispered charges that he  
ever sought to "interfere" with the  
functions of his department.

### Montreal Flashes Rumor.

MONTREAL, Que., April 13.—A re-  
port was received by Canadian Pacific  
Telegraph headquarters that a plane  
believed to be the Bremen passed over  
Yarmouth, Nova Scotia, at 11:45  
o'clock, Nova Scotia time.

An earlier report had been received  
by the Canadian Pacific Telegraph  
company that a plane had been sighted  
over Kinsport at 10:30 o'clock by  
Capt. Barkhouse, of the Canadian gov-  
ernment marine service. Capt. Bark-  
house said that the plane was too  
high in the air to distinguish the  
markings.

### Sleet Falls at St. John's

ST. JOHN'S, Newfoundland, April  
13.—No word had been received of  
the whereabouts of the German Trans-  
Atlantic plane Bremen up to 9:45 a.  
m., local time.

Sleet fell here during the morning.

NEW YORK, April 13.—The radio  
corporation of America today de-  
clared a report that their Chatham, Mass.,  
station had picked up a message from  
a ship at sea stating that a plane be-  
lieved to be the Bremen had been  
sighted off Newfoundland at 5:30 this  
morning.

The report, emanating from Nahant,  
Mass., stated that the coast guard sta-  
tion there had intercepted the mes-  
sage.

MITCHELL FIELD, N. Y., April 13.—  
Eager to witness what they anticipate  
will be the epochal arrival here today  
of the German monoplane Bremen  
with its crew of German and Irish  
fliers, a great crowd assembled at  
Mitchell field this morning and hope-  
fully scanned the skies for a big sil-  
ver airplane that holds the aspirations  
of two nations.

In the throng were Dr. Gustav Hen-  
ner, acting German consul general of  
New York, and Eugene Klee, consul  
in New York in charge of aeronautics,  
who, with Grover Whalen of Mayor  
Walker's reception committee, plan-  
ned to be among the first to greet  
Captain Herman Koehl, Commandant  
James C. Fitzmaurice and Baron Eber-  
hard von Huenefeld, if the three  
airmen are successful in their pro-  
jected hop from Ireland to New York.

## REPORTS FROM STOCK MARKETS

NEW YORK, April 13.—Industrial  
stocks jumped at the beginning of  
trading today. Consolidated Gas, Gen-  
eral Motors, General Electric and  
other speculative favorites, started  
the day with prices 2 to 6 points high-  
er, with initial sales of 5,000 to 15,000  
shares.

Wall Street seemed relieved over  
the continuation of the 4 per cent  
discount rate for the New York Fed-  
eral Reserve bank and the moderate  
increase of \$1,000,000 in brokers  
loans in the weekly compilation. Bull-  
ish forces swept everything before them.

General Electric's 6-point jump to  
163 was the feature of the specialties.  
Bethlehem steel plunged ahead to  
above 68 on a new 3-point drive. Na-  
tional Cash Register, Cerro de Pasco  
Copper, Consolidated Gas and a few  
of the low priced specialties made  
new advances.

## John D. Jr.'s Son's Class Loses Clash

Young Rockefeller  
Sports Black Eye Af-  
ter Dartmouth College  
Sophomores Fail to  
Quell Freshman Up-  
rising.

HANOVER, N. H., April 13.—Nelson  
Rockefeller, son of John D. Rockefel-  
ler, Jr., and vice president of the  
sophomore class at Dartmouth college,  
was sporting a black eye today, as a  
result of the vain attempt of the sec-  
ond year men to quell a freshman up-  
rising. The outcome of which was the  
nullification of the freshman rules by  
the student governing body.

The freshman revolt began when all  
members of the class tossed their lit-  
tle pea green hats into a bonfire. It  
came to a climax when the yearlings  
accepted the challenge of the second  
year men and met in a pitched battle  
with the freshman rules at stake.

The two classes struggled for pos-  
session of a length of rope, and al-  
though it was cut several times and  
even ignited, the sophomores could  
not wrest it from the freshmen.

## HOUSE SPEAKER ENTERS FLOOD CONTROL FLIGHT

Longworth Seeks to  
Forestall Presiden-  
tial Veto.

**ASKS AMENDMENT**  
Calls Conference of  
Spokesmen for Two  
Factions.

WASHINGTON, April 13.—Speaker  
Nicholas Longworth of the House to-  
day entered the flood control flight in  
an effort to forestall a presidential  
veto and the adjournment of congress  
without providing against new disas-  
ters in the Mississippi valley.

Calling Republican leaders of the  
house and spokesmen for both fac-  
tions on flood control into confer-  
ence, Longworth urged consideration  
of amendments designed to bring  
about a compromise.

President Coolidge, according to  
house leaders, has decided to veto  
the Reid Jones bill unless it is amend-  
ed.

Longworth condemned the measure  
in its present form, which is estimat-  
ed to cost eventually from \$750,000,  
600 to \$1,000,000,000.

The administration amendments in-  
clude:

Giving the presidential dictatorial  
control to prevent excessive expendi-  
tures.

Requiring states or local districts  
to provide floodways, estimated to  
cost from \$50,000 up.

Requiring railroads to assume part  
of cost of relocating lines if benefited  
by the flood control works.

Local maintenance of flood ways.  
Reaffirmation of principle of local  
contributions, with provisions for  
waiving contributions in lower Mis-  
sissippi valley if districts are virtu-  
ally bankrupt.

## FIRE DESTROYS DAYTON PLANT

Frahmpton Electrical  
Company Suffers  
\$200,000 Loss.

DAYTON, O., April 13.—An esti-  
mated loss of \$200,000 was suffered  
by the Frahmpton Electrical company  
when fire destroyed its plant here  
early today.

The company occupied the building  
of the old Globe Foundry company  
and fire started in the boiler room.  
Three vats of oil exploded, scattering  
sheets of flame on other parts of the  
building and on the adjoining plant  
of the Fenestra Steel Sash company.

## OHIO'S WHEAT AND RYE CROPS ARE DAMAGED

Unfavorable Winter  
Causes Loss to  
Farmers.

**FEDERAL REPORT**  
Predict Abandonment  
Will be Heavy in  
Spring.

COLUMBUS, O., April 13.—Winter  
wheat and rye planted by Ohio farm-  
ers last fall suffered heavy material  
damages from the past unfavorable  
winter and they are in the lowest con-  
dition at this time of the season than  
they have been in the last 40 years,  
according to G. S. Ray, of the United  
States department of agriculture here.

Over two million acres of wheat  
were planted last fall, Ray said.  
Though this figure looks promising in  
itself it was pointed out by Ray that  
the abandonment of winter wheat  
crops in Ohio will be very heavy in  
the late spring.

Dividing the state into three areas,  
the western, central and eastern, Ray  
declared that the winter wheat is ex-  
tremely poor in the western section,  
only slightly better in the central  
area, but promising in the eastern sec-  
tion.

In the plain states, which grow the  
bulk of the hard winter wheat the  
condition of crops is reported about  
average, but in the Ohio Valley states,  
where most of the soft winter wheat  
is grown, the reports confirm the ear-  
lier indications of extremely low con-  
ditions and heavy abandonment. In  
Ohio, Indiana, Illinois, Missouri and  
Kentucky the condition of winter  
wheat is the lowest reported since  
1879.

The average United States condi-  
tion of soft winter wheat such as is  
grown in Ohio is about 55 per cent,  
compared with a ten-year average of  
82 per cent, Ray stated.

Discussing the winter rye crop Ray  
said that it is the poorest condition  
ever recorded.

Ray refused to say what result  
these poor conditions would have on  
the prices of the Ohio wheat and rye  
market.

tures something to talk about forever.  
Women may thank the good Lord  
for granting the flying machine. They  
can fly on the average as well as any  
man, and the airplane is another step  
toward real equality.

THE efforts to abolish the unwise  
tax on automobiles develops the fact  
that the government collected a thou-  
sand million dollars from automobile  
owners and spent only six hundred  
millions on better roads—not fair to  
the men that pay for the cars, "war  
tax included."

The war ended some time since and  
the foolish tax ought to end.

A COMPANY is formed to build sea-  
dromes, ocean landing places to be  
scattered over the Atlantic. The  
theory is that trans-Atlantic airplanes  
would land, get fuel and start again.

But by the time the Atlantic is  
"dotted with seadromes," planes will  
fly across the Atlantic as easily as  
they now fly across the English chan-  
nel.

IN the second place, if it is hard  
for fliers in somewhat foggy weather  
to find the Hawaiian Islands in the  
Pacific, how difficult would it be for  
them to find a landing place "dot" in  
the Pacific? As hard as finding a  
turtle asleep on the Pacific.

MUSSOLINI decides finally that  
handshaking must go, and young Fas-  
cisti are instructed to give the im-  
pressive Fascist salute. No hand-  
shaking, it spreads infectious dis-  
eases. Civilized beings, especially  
middle aged Americans, accustomed  
to having their fingers crushed two  
or three times a day by young "go-  
setters," would like that rule adopt-  
ed everywhere.

Two greyhounds were taken by air-  
plane from Guilford, England, to the  
Staines racing track recently.

## HERE'S WEATHER FOR COAST HOP

WASHINGTON, April 13.—Fore-  
cast till 8 p. m. Saturday:  
For northern New England, part-  
ly cloudy and slightly colder to-  
night; Saturday partly cloudy, cold-  
er in the interior.

Southern New England, partly  
cloudy and slightly colder tonight;  
Saturday increasing cloudiness, fol-  
lowed by rain in Connecticut and  
western Massachusetts in afternoon  
or at night.

Eastern New York, increasing  
cloudiness tonight, slightly colder  
in north portion; Saturday rain;

"I Hope They Make It,"

**AWAITS REPORTS**  
Bremen Crew Has  
Nerve, Says Atlantic  
Trail Blazer.

SANTA BARBARA, Cal., April 13.—  
The man who first spanned the At-  
lantic by air has nothing but admi-  
ration and heartfelt wishes for Captain  
Hermann Koehl and his companions in  
the Junkers monoplane Bremen.

Upon hearing the news that the  
Bremen was winging its way to Ameri-  
can shores, Col. Charles A. Lindbergh  
evidenced deep concern over the  
chances for success in the latest at-  
tempt to fly across the Atlantic in a  
westward direction, according to re-  
ports today from the Monrovia estate  
of Mrs. Laura J. Knight, near here,  
where the Lone Eagle is resting.

"I sure hope they make it," Col.  
Lindbergh is reported to have said.  
"Those boys have nerve, considering  
what has happened to the others who  
tried to fly westward over the At-  
lantic."

He is reported to have concluded  
his comment on the Bremen's flight  
with an expression of hope that the  
three flyers land safely in New York.

## Earl Marshall Dies In Detroit Accident

**Former Industrial League Baseball Player is Killed in Automobile Crash.**

Earl Marshall, 21, son of Mrs. Alice Marshall, Virginia avenue, was killed yesterday afternoon in an automobile accident in Detroit, Mich., where he had been employed for the past four months as a truck driver by a chain store company.

Messages received by the family contained no details as to the cause of the accident.

Marshall, who was formerly employed by the American Sheet and Tin Plate company, was born in Pugh-town. He had been a resident of Chester for 17 years, and was a member of the Chester industrial league baseball team for a short period last spring.

Besides his mother, he leaves three brothers, Charles, Errol and LaVerne, and one sister, Miss Della Marshall, all of Chester.

The body will be brought here for burial.

**Fish Fry for Officials.**  
City officials will be entertained at a fish fry tonight in the home of Councilman Dennis Linger in Fairview street.

IMPORTANT SILHOUETTE.

A small model that achieves importance by its diagonal closing and circular skirt with the up-in-the-front waistline, creating a snug fit through the hips, making it particularly suitable for the woman with a mature figure. Inverted tucks at either shoulder add a slight fullness across bust. Style No. 3406 is youthful and becoming for general wear made of printed silk crepe with plain crepe used for applied bands around neck and down front to emphasize its one-sided effect. Crepe satin, flat silk crepe, figured georgette crepe, shantung and sheer woolsens are also appropriate and fashionable. ### Ask \$150,000 for Chair in American History in London

LONDON.—For the purpose of establishing a Chair of American History in the University of London, where a lectureship already exists, a London Committee has been formed to cooperate with the Committee formed in New York in 1926 in furtherance of the movement. The object of the movement is to raise a capital sum of \$150,000 the income from which will be used for the salary of the professor and to

some extent for the provision and maintenance of a library of American history in connection with the chair. Lord Loc, well known in British literary circles, has been chairman of the committee.

# Mitchell And Edwards Matched For District Welter Crown

## Rivals to Battle on Next Card

Scrap Will be Feature of April 23 Show at Eagles'.

ALTHOUGH Nick Susnell and Al Kendlar, a pair of 147 pounders from Rochester and Alliance, respectively, are matched in the headline battle on the Eagles' next mitt program, the chief attraction for the delegation of Chester fans who contribute regularly to the fight offers, as well as a large number of local customers, will be the Ray Mitchell-Freddy Edwards shindig that Matchmaker Tom McDonough has lined up for Monday night, April 23.

The crowd has been clamoring for this bout for some time and McDonough says that he has finally managed to get the pair together again in the same ring at the same time.

Edwards and Mitchell have fought once before here, with the Chester lad taking the decision in four rounds. Not satisfied with the outcome of that scrap and his own personal contributions to it, Mitchell sought a return meeting and here it is.

This battle will determine supremacy among the East Liverpool district welters. Edwards has won four fights in his four appearances on the F. O. E. bill, three by the knockout route. Mitchell was the only one of the quartet to step out with Edwards who did not end up on the canvas.

Mitchell in Steubenville.

MITCHELL will participate in a warm-up scrap next Monday night at the K. of C. hall in Steubenville, taking on Young Bruno, of Steubenville, in the six-round semi-final of the card. Andy Tomasky, 118, of McKeesport, and Pete Roberts, 118, of Wheeling, are paired off for the eight-round main battle.

Eddie Rose, another East Liverpool pug, is also scheduled to appear on this card, meeting Eddie Wright of Weirton. Rose will weigh in around 155 and Wright at 150. These boys will open the show in a four-rounder.

Three other four-round tilts are on the program. Johnny Bass, 138, Steubenville, meets Jimmy Herman, 140, Wellsburg; Young Ketchell, 112, Steubenville, meets Young Sanders, 112, Weirton, and in the remaining four-rounder, Harry Clendenning, of East Liverpool, tackles K. O. Trella, of Weirton, in the 115-pound classification.

Davis Disqualified.

KENNY DAVIS, the best featherweight developed in the district this winter, missed a victory over Kid Smith, Steubenville, in a four-rounder last night at Steubenville by a queer quirk of fate and a very, very technical decision by Referee Harry Sully of Columbus.

Davis, after sewing up the bout in the early rounds, was disqualified by Sully in the last round just a half-minute before the final tap of the going would have ended the fight.

Davis, after an exchange of blows, staggered and fell to the canvas. Sully ruled he was not hit and that his actions were sufficient for disqualification. Some of the ringsiders expressed the opinion that he had been hit. According to Tom McDonough, F. O. E. matchmaker here, who saw the fight, Davis was rather badly winded after four fast rounds and it would not have taken much of a rap to unbalance him.

In the eight-round final Young Sweeney, Mingo, shaded Joe Boychan of Newark.

## Atlantic Coast Line Directors To Name President

WILMINGTON, N. C.—Bellet prevails in railroad circles here that no successor to the late John R. Kenly as president of the Atlantic Coast Line Railway will be named until the annual meeting of the board of directors at Richmond, Va., April 17.

Kenly died here in March following a short illness.

## Fight Results

AT DAVENPORT, Ia.—Red Uhlman of California knocked out Mike Rozgal of Omaha, (5).

AT CANTON, Ohio.—K. O. Christner, Akron heavyweight, kayoed Quentin Romero Rojas, of Chile, 3 rounds.

AT WILMINGTON, Del.—Young Ketchell, Chester, Pa., defeated Gene Moretti, Atlantic City, N. J., 8 rounds.

## Schwartz Plans Bout in England

NEW YORK, April 13.—Corporal Izzy Schwartz, recognized by the New York State Boxing commission as flyweight champion of the world, may meet Willie Smith in a fifteen-round bout in England on June 4. George McDonald, British fight promoter, has offered Schwartz \$10,000 and transportation for the contest.

Schwartz's title would not be at stake because Smith, a South African, is a bantamweight.

## Old Alex Shuts Out Pirates

41-Year Old Veteran is Victor in 5-0 Contest.

By Les Conklin.

NEW YORK, April 13.—Experts who slighted the St. Louis Cardinals in their calculations of the National league pennant race because the pitching staff "is a year older," would do well today to revise their estimate as far as Grover Cleveland Alexander is concerned. Officially starting his eighteenth campaign as a big leaguer, "Old Pete" held the champion Pittsburgh Pirates to seven hits yesterday and blanked them, 5 to 0.

The forty-one-year-old dean of the St. Louis staff has twirled nineteen scoreless innings since the Cards started training this year.

Frank Frisch led the attack on Burleigh Grimes, getting a single and his second homer in two days.

The Cardinals are tied for first place with the Cincinnati Reds, who beat the Cubs again. All eastern clubs in both leagues were idle.

The two Chicago teams, which made much brilliant records in exhibition contests, have yet to win a league game. Scoring six runs in the eighth inning when the Cubs made two errors, the Reds swamped the Bruins, 9 to 3. Purdy, rookie Cincy outfielder, from the west coast, starred at bat with three hits.

Langford's second triple in two days enabled Joe Shaute of Cleveland to win a 2 to 1 duel from Alphonse Thomas of the White Sox.

The supposedly weak St. Louis Browns scored five runs in the eighth and swamped Detroit, 7 to 2.

Giants Release Buck Lal.

NEW YORK, April 13.—The New York Giants have released Buck Lal, Chinese infielder, to the Jersey City club of the International league.

## Bids for Swim Title

Andrew Charlton, Australia's swimming champion, is out to beat Arne Borg in the 1,500 meters swim at the Olympic Games in Amsterdam. He also hopes to defeat Johnny Weismuller in the 400 meters. His best time for the 400 yards is 4 minutes, 59.4 seconds.

## Sportsmen to Hold Fish Fry Here April 27

Rev. R. K. Caulk, J. W. Stuber Will be Chief Speakers.

Arrangements for the organization's annual spring fish fry were completed at a meeting of members of the East Liverpool branch of the Columbiana County Fish and Game Protective association last night in the Ingram building.

The event will be held on Friday evening, April 27, at 6 o'clock, at the St. Stephens parish house, West Fourth street, and the fish will be served by ladies of the parish.

Rev. R. K. Caulk, rector of St. Stephens church, and vice president of the League of Ohio Sportsmen, together with J. W. Stuber, Columbus, who is secretary of the league, will be the principal speakers.

Stuber, in addition, will bring with him from Columbus several reels of wild life pictures that are expected to add greatly to the entertainment program.

## Billiard Title Play Off Looms

CHICAGO, April 13.—A playoff for the title in the national three-cushion billiard tournament in progress here yesterday as a result of victories yesterday by Willie Hoppe and Johnny Layton.

Otto Relselt, defending champion, Hoppe and Layton are now tied for first place, each with five games won and two lost.

The last five games of the tourney will be played today and tomorrow, but it is doubtful if they will result in an undisputed titleholder.

England has been greatly interested in recent reports that wolves in Chicago are attacking women on shopping tours.

## SPORT NEWS AND VIEWS

By the Sports Editor.

LACKING anything but encouraging conditions in the way of weather and an outdoor track, high school tracksters are getting along pretty well at that with their indoor workouts, with the annual Columbiana county meet a month away.

Since organization of track activities a short time ago, the squad has been kept indoors by disagreeable weather conditions, although it's hardly possible they would have been able to do much at Columbian park anyway in view of the condition of the track. It will be necessary to put a scraper to work on the half-mile oval before the boys will be able to get much good out of it, once they do get started outdoors.

Good performances, however, have been reported from the squad's work to date, especially in the weights and the high jump. Elmer English, sprint star, has not been able to do much but will likely need a great deal of conditioning in order to duplicate his successes of last year when he ran the legs off the field in the dashes at Lisbon.

The Salem-Lisbon track meet scheduled for Saturday has been postponed until the following Saturday and a meet with either Alliance or Struthers is being planned in its place. Neither Reilly field nor the fair grounds were in the best condition for the meet.

Wilbur Springer, Red and Black athletic mentor, will send a delegation of tracksters to the Columbus meet this spring, although the lineup, with the exception of his two great vaulters, "Rib" Allen and "Mutt" Roessler, has not been determined.

These golfing boys didn't do so bad the past winter, what with picking up a couple of thousand here and there every few weeks and especially was it a good season for Johnny Farrell and MacDonald Smith, who won most of the important prize money in the California, Texas and Florida opens.

Farrell and Smith earned \$5,500 each and some \$15,000 in other cash prizes went to Bill Mehlhorn, Gene Sarazen, Bobby Cruickshank and Tommy Armour.

Cruickshank failed to win a single big tournament, but he finished third in four tournaments and managed to place third among the money winners for the season with \$4,500.

Smith played in nine tournaments, won three, was second twice and finished third and fourth in two others, a total of seven times when he was well up in the money.

Farrell played in eight tournaments and won only one, but that one victory in the La Gorce open at Miami Beach netted him \$5,000. He tied for first place in the Nassau open and finished second and third in two others.

Smith's best killing was in the rich Los Angeles open where he won first prize of \$3,500 with a total of 284 strokes.

Farrell's sensational round of 63 in winning the La Gorce prize was the most spectacular performance of the season, but he was pretty even with Smith on the season's scoring. Smith's average for thirty-four rounds was 72.234 and Farrell's for thirty rounds was 72.1230.

Gene Sarazen played in only a few tournaments, but he did exceptionally well financially, winning more than \$3,000. He won the Miami and the Miami Beach open and tied Farrell for first at Nassau. His average score led the field. He played 18 rounds for an average of 71.118, the only player to get below 72.

The earnings of Bill Mehlhorn and Tommy Armour also exceeded \$3,000. Mehlhorn played in nine tournaments and won three. Armour also played in nine and although he failed to win a first prize he was consistently up near the top.

The \$2,000 class included Harry Cooper, Al Watrous, Al Espinosa, Joe Kirkwood and two newcomers, Billy Burke and Henry Cluel.

The list of major tournaments and winners follows:

Los Angeles open—MacDonald Smith.

La Gorce open—Johnny Farrell.

North and South open—Billy Burke.

Texas open—Billy Mehlhorn.

South Central open—MacDonald Smith.

Florida open—Henry Cluel.

West Coast open—Al Espinosa.

Bahamas open—Gene Sarazen and Johnny Farrell.

El Paso open—Larry Nabholz.

Palos Verdes open—MacDonald Smith.

Miami open—Gene Sarazen.

Long Beach open—Bill Mehlhorn and Leo Diegel.

Miami Beach open—Gene Sarazen.

Richmond open—Bill Mehlhorn.

International Four Ball—Johnny Farrell and Gene Sarazen.

More than 4,500 fans saw the card. Jimmy Farrell, Akron, outpointed Jack O'Connor, Cleveland, in seven rounds of the eight round semi-final. Collapse of the ring prevented scheduled 8 rounds.

Gorilla Jones, Akron negro middleweight, was awarded technical K.O. over Buck McMillan, Indianapolis (2).

## McMahon Lines up 7 Champs

Garden Matchmaker Outlines Summer Program.

NEW YORK, April 13.—Matchmaker Jess McMahon is now planning to show seven of the nine boxing champions under Tex Rickard's banner this spring and summer. Matches have developed, or are developing, for all except Walker, who won't fight for Rickard because Jack Kearns is his manager.

Here is the way McMahon would line them up:

May 4.—Tod Morgan vs. Eddie (Cannonball) Martin for the junior lightweight title at Madison Square Garden.

May 17.—Sammy Mandell vs. Jimmy McLarnin for the lightweight title at the Polo Grounds.

May 24.—Izzy Schwartz vs. Frankie Genaro for flyweight title at the Garden.

June 7.—Tommy Loughran vs. Jimmy Slatery or Leo Lomaki for light heavyweight title at the Yankee Stadium.

June 14.—Bud Taylor vs. Kid Francis for bantamweight title at the Yankee Stadium.

June 21.—Joe Dundee vs. Ace Hudkins or Sammy Baker for welterweight title at the Polo Grounds.

July 26.—Gene Tunney vs. Tom Heeney for heavyweight title at the Yankee Stadium.

The Morgan-Martin, Mandell-McLarnin and Tunney-Heeney matches have been closed and the first two definitely scheduled.

AT FORT THOMAS, Ky.—Gypsy Williams, Toledo, O., bantamweight, awarded newspaper decision over Willie Yap, Indianapolis, 10 rounds.

## Attendance at Openers Is Hit by Bad Weather

Later Start May be Proposed, Not Only for Fans' Comfort But Also to Avoid Physical Risks to Players.

By Davis J. Walsh.

NEW YORK, April 13.—Proponents of the idea that it is better to see a ball game in your décolleté shirt sleeves than feel it in your marrow were armed today with significant evidence that the baseball season is being started neither wisely nor too late. At least five of the eight inaugurals on Wednesday were made almost untenable from the standpoint of physical comfort because the weather was that of mid-February and yesterday the four scheduled games of the East were allowed to go by default because of rain, chill and, in one instance, snow.

For some years, there has been agitation in certain quarters for a later start in the major leagues, both as an aid to the noble athletes who welter in the south so that they may congeal in the north as quickly as possible and as a boon to the populace. These reasons, of course, are stated strictly in the order of their importance.

But, whatever the final reason may be, the time will come when baseball will set its calendar back by a matter of ten days or more on its own initiative. It won't do so because it finds it is unnecessarily subjecting its ball players to physical risks. Neither is it likely for the fact that sooner or later some mugg will have to be cut out of his overcoat and hung in the steam room until conscious or even sober. Those sort of things are a bit unromantic, but a baseball man doesn't let that bother him. He is highly sympathetic by nature, of course, and just can't help it that his sympathy is something with which he prefers to burden only himself. The sight of an empty seat will cause him to condole with himself by the hour.

I take it, therefore, that he was all but heart-broken on Wednesday. The

eight openings played to 198,517 patrons, as we say in the outer office. On a more propitious occasion, they might have numbered as many as 275,000. At the Polo grounds, for example, Roger Hornsby versus the Giants crossed 35,000; the attendance on a fair day might have been 55,000. In Philadelphia, they had Ruth, Gehrig, Cobb and Speaker in the same ball game and the turnstiles showed only 20,000 against a possible capacity of 35,000. There must have been a lot of keepers among those 20,000, at that.

In Brooklyn, the attendance was that of an ordinary Sunday in May, the first 35,000 get in the park and the others pile up in great disorder in the doorway.

These rows of empty seats speak the only language that is intelligible to the magnate. He insists on the early start because he fears the loss of a few patients who, lacking consideration, might go and die on him between April 11 and April 20. He likewise rushes the season because he thinks he might get a break on the weather and can prove that he did, back in 1889.

# MYSTERY MURDER OF FAMILY

Wayne County authorities began a man hunt for a cold-blooded murderer who wiped out the family of Frank Stever Warren (left), prominent resident of Newark, N. Y., and well-known insurance man of Rochester. Warren and his beautiful wife, Edith, both 42, were shot through the head apparently while they slept. Their bodies, with that of their thirteen-year-old son, Jackson, were found by neighbors called to fight a blaze in their home.

## ANNIE LAURIE'S TIMELY ADVICE

DEAR ANNIE LAURIE:

We are two young girls in our teens. We often see two young men who always try to attract our attention. We catch them looking at us many times. Do you really think they love us or what are their intentions?

TWO BLONDES.

TWO BLONDES: I advise you to pay no attention to these boys unless you can find some mutual friend to arrange an introduction. Since you have never met these boys it is highly improbable that they are in love with

you or concerned with anything more than the possibility of making your acquaintance. I must caution you against speaking to them unless you are formally introduced, as unconventional meetings often lead to misunderstandings with subsequent unpleasantness. I would advise you girls to content yourselves with the friendships you now enjoy and cease to be concerned about the efforts of these boys to attract your attention.

DEAR ANNIE LAURIE:

I am a girl in my teens. I met a boy about four years my senior and went with him a while, but he has stopped calling. I do not know the reason. I see him almost every day and sometimes he acts friendly. Please tell me how to regain his friendship, as I like him very much.

Would it be improper to invite him to a party? ANXIOUS. ANXIOUS: Yes, it would be quite proper for you to invite this boy to a party, and such an invitation may afford you the opportunity of readjusting matters so that your friendship progresses as it should. There must be some definite cause for this boy's changed attitude and by indicating your continued interest, you might be able to determine what it is and straighten things out so that you can enjoy each other's companionship again.

## KINDLY COPS KEEP CHICAGO BOY CRIME LOW

"Big Brother" Attitude Reduces Juvenile Offenses.

### JOBS FOR YOUTHS

Plan Will be Put Into Operation in Philadelphia.

CHICAGO, Ill.—The "Big Brother" attitude of police to juveniles has resulted in a surprising lack of young criminals in Chicago, in the opinion of Thomas A. Merryweather, director of the Philadelphia crime bureau.

Used by the increasing number of crimes committed by boys and girls under the age of 21 years, Merryweather came to Chicago recently to make a study of police methods here. Philadelphia, Merryweather found, was in need of some means of curbing juvenile criminality, and he believes he has found the means in the "Big Brother" attitude of police here.

**Jobs For Boys.**  
"The work of police in finding jobs for young boys and in guiding them in the right paths seems to have been immensely successful," Merryweather told members of the Chicago police department.

"We found the increasing youth of criminals in the east a source of serious concern.

"Boys in their teens were committing crimes that were almost unbelievable.

"For that reason I came to Chicago to study the way the problem was solved here. The results I found from the Chicago system have surprised me. Through their friendly aid, the police have given boys and girls here a real interest in 'going straight'.

"By canvassing the business men of the city the police have found interesting work for thousands of boys who would otherwise have been on the streets.

**Criminal Influences.**  
"Consequently, those boys have been turned from the quick money idea and, more important, have been placed beyond the reach of criminal influences.

"In the future it will mean a decrease in criminals, because less boys will be starting on the wrong path."

Since last year, according to the records of the department, the employment bureau of the Chicago police department has found jobs for approximately 4,000 boys between the ages of 16 and 21 years.

One of the main points of the plan to be put into operation in Philadelphia will be the boys' employment service, according to Merryweather.

# CHICAGO PLANS MEMORIAL TO WORLD WAR MEN

Illinois Metropolis to Honor Soldier Heroes.

## SEEK LOCATION

Prominent Citizens Pledge Financial and Moral Support.

CHICAGO, Ill.—Ten years after her sons died on the battlefields in France, Chicago is undertaking to draft plans for a World War memorial. While other midwestern cities have erected various memorials to the dead in the world war, this city has, as yet, taken no such action, and plans have been suggested by James Simpson, chairman of the Chicago Plan Commission.

"It does not seem to me that provision of a war memorial is within the province of the commission," he said. "Yet it has occurred to me that under the circumstances the commission might well take the initiative in the creation of a special war memorial committee, composed of outstanding civic leaders; in whose impartiality, judgment and patriotism the people of Chicago may have full confidence."

### Committee Named.

John A. Holabird, architect, has agreed to serve as chairman of the committee fostered by the Chicago Plan Commission. Other prominent members who have accepted the problem are Col. Albert A. Sprague, Gen. Abel Davis, Col. Robert R. McCormick, Howard P. Savage, R. P. Lamont, William Rufus Abbott, Sewell L. Avery, Julius Rosenwald, Roy D. Keohn and Edward H. Bennett. The committee will begin its investigation into the most feasible form for the project without prejudice.

"It must not be thought that the Chicago Plan Commission has any preference as to the type of memorial, its location, cost or any other feature in connection therewith," Simpson declared in a letter which he sent to the members invited to join the memorial committee.

"Our investment is, primarily, to see that a proper memorial, of a suitable type, is constructed at an appropriate location, so that the memory of the war and those who participated in it may be adequately observed by this city."

It seems to me that there has been a conflict in ideas as to what Chicago should do.

"There is no doubt that the city should in some way memorialize the men who lost their lives in the world war, and those who fought in the war."

### Financial Support.

Various prominent Chicagoans have indicated that they will lend their financial and moral support to the project, which would make Chicago the site of one of the most imposing memorials in the country.

Starting without any conviction as to what form the memorial will take, the committee will be at liberty to consult prominent architects and artists from any place for ideas. In a short time, it is believed, the committee will be able to suggest a definite project which might be completed by the time the World Fair is held here.

Numerous sites already have been suggested and offered for a memorial. As soon as a decision is reached on the type of the project, which probably would involve the expenditure of several million dollars, means of financing will be taken up by backers of the memorial idea.

Wales' birth rate is decreasing.

## Railroad Workers Get \$50,000,000 Pay Jump

Salary Total During  
Past Year Shows In-  
crease Over 1926, Bu-  
reau Says.

PITTSBURGH.—Railroad employees received \$50,000,000 more in salaries the past year than during 1926, an estimate released by the bureau of railroad economics recently reveals. These computations are based upon a study by the bureau of the hours worked and wages paid employees for the year.

The number of railroad employees is steadily falling off, the bureau finds. During the first six months of 1927 there were nearly one per cent less men employed than for the same period of 1926, while during the last six months of the year the decrease was even more noticeable, resulting in a decline of four per cent from the previous year.

The average number of men employed throughout the year the bureau found to be 1,764,000, compared with 1,805,780 during 1926 or an average reduction of about two per cent for the year.

### Average Pay Higher.

But while the total number of men employed for the year showed a decrease of approximately two per cent, the aggregate compensation paid employees for the period did not keep pace with the downward trend, according to the report. The comparative salary figures for the two periods show \$2,990,000,000 for 1926. While the aggregate shows a decrease, it was only a decrease of one per cent.

Hence, the report concludes, the average compensation per employee was on a higher level in 1927 and continuing further, points out that increases over the past four years have brought the average for 1927 salary to approximately \$1.673. The average compensation for the previous year was \$1.656.

"Bearing in mind the reduction in the average working day, it seems fair to conclude that increased wage rates were responsible for not less than \$50,000,000 of the wage bill of the railroads for 1927, as compared with the corresponding wage rates for the previous year."

Railway operations were able to show 15.2 per cent more efficiency in 1927 than during the five year period 1920 to 1924, according to an index of railway efficiency, also prepared by the bureau of railway economics.

### Efficiency Higher.

"The highest point was reached by this index in February, 1927, when the index stood at 118.1, that is, the efficiency for that month on a level of 18.1 per cent higher than during the five year period," said Dr. Julius Par-meleo, director of the bureau, analyzing this subject.

"The composite index was almost as high during March and April and during the remaining months ranged between 112.1 and 115.3. The chart also carries the yearly averages for the period. This indicates a progressive increase as follows: 1924, 100.0; 1925, 105.8; 1926, 109.4; 1927, 115.2.

One of the enviable records made is said to be that of the Great Northern. This company has just completed its tenth year of consecutive service without a fatal accident to a passenger while riding on its trains.

During the ten years the company carried 61,811,359 passengers on an average ride of 53.74 miles each. The total passenger miles numbered 5,794,474,870 for the period.

## Oklahoman Faces Trial for Murder of 22 Years Standing

TISHOMINGO, Okla. — A man is scheduled to go on trial here April 28, for the murder of his brother-in-law nearly 22 years ago.

James W. Duncan was slain here July 24, 1906. His brother-in-law, William Watterson, was arrested as the assailant and indicted. He escaped from jail, and with his small daughter disappeared. Recently Watterson attempted to communicate with a brother living near here, but the letter went into the hands of Sheriff Robert Phillips.

Watterson was captured on a ranch in Nevada, and returned here to face the murder trial.

## Minerva

Forty-eight members were added to the Christian church Sunday at the close of the two weeks pre-Easter campaign. Mr. and Mrs. A. C. Tucker, of Huntington, W. Va., assisted the pastor, Rev. J. Walker Funk. Ten children who were perfect in Bible study were presented with testaments. Sunday school attendance was 687.

Missionary society of the Christian church met Monday night in the church parlors. Mrs. Howard Yoder presided. Social hour followed the program.

Sunday school class of the Presbyterian church met Monday night in the home of Mrs. Irene Saltsman. Mrs. Dorothy Person and Mrs. Gladys Draher assisted the hostess. Miss Bernice Reynolds was elected president to succeed Mrs. Helen McKee. Miss Mary Bigger is the teacher.

Funeral services for Frank Schwerdtfeger, 56 years old, who died in his home two miles west of Minerva, were held Wednesday afternoon. Burial was made in Mt. Zion cemetery. He leaves his widow and one daughter, Miss Irene Tonnenmaker.

Wallace F. Manley, son of Dr. and Mrs. Carl Manley, former residents of

Minerva, died recently at Eustis, Fla. Burial was made there.

Rev. S. S. Burnett, pastor of the Methodist church, addressed the faculty and students of the high school last Friday.

College students who spent the Easter vacation with home folks were Mary McHenry, Mildred Unkefer, Roger Berry, Spencer Patterson, Eloise Berry, Florence Bonar and Jacob

Hines, Mt. Union college; Miss Lorena Pease, Bethany college; Miss Helen Freed, Wooster, and Misses Hazel Messemore and Velma Algeo of Wittenberg college.

Mr. and Mrs. James Wilson and Mr. and Mrs. Milford Woods of Pittsburgh were Sunday guests of Mr. and Mrs. John Hahn, 502 Plain avenue.

Mr. and Mrs. G. L. King have returned from Safety Harbor, Florida,

and are guests of Mrs. King's sister, Mrs. Ralph Henry, on North Market street.

Mrs. Emma Wilson of Pittsburgh has concluded a visit with her aunt, Mrs. Almira Kurtz.

# Sensational Success

—based on sensational value

You need to know only a few of the exclusive superiorities offered by today's Pontiac Six to understand that its sensational success is based on sensational value. It is the lowest priced six in the world with body by Fisher. It is the lowest priced six offering the

G-M-R cylinder head, the cross-flow radiator and the AC fuel pump. It is the only low-priced six combining 185 cubic inches piston displacement, a full-pressure oiling system, interchangeable main bearings and instant action four-wheel brakes. Add to these evident advan-

tages in design the fact that it is the lowest priced six built by General Motors—that in the hands of 200,000 owners it has won a worldwide reputation for endurance, long life and high resale value—and then you will know why Pontiac Six sales are continually reaching new record-breaking heights!

## MISS DEL RIO SCORES TRIUMPH

"The Gateway of The Moon," Fox Films' colorful drama of the South American jungle with the beautiful Dolores Del Rio in the stellar role had its local premier at the Ceramic theatre yesterday before a crowded and enthusiastic house.

Miss Del Rio, who achieved wide world fame with her characterization of Charmaine in "What Price Glory," again scores a triumph in the part of Toni, a half caste girl of the wilds. Perhaps no star in motion picture has both the alluring beauty and emotional capacity for portraying the role of such a primitive child of nature as this same Miss Del Rio.

The story of "The Gateway of the Moon" deals with white men's efforts of building a railroad through the jungle at ruthless cost to native life and happiness. Gillespie, the chief engineer, played by Anders Randolf, is a brut, hated and feared by his white and native workers alike. Toni is his niece, who neither fears nor hates him. But with the coming of Wyatt, played by Walter Pidgeon, she begins to recognize her uncle's evil nature and is willing to help Wyatt.

There is splendid action, suspense and humor in this picture and the

## DOUG FAIRBANKS PICTURE COMING

Film enthusiasts will welcome the appearance of Douglas Fairbanks on Monday at the American theatre, when, from all indications, seating accommodations will be taxed to the limit.

Douglas Fairbanks as The Gaucho is a United Artists picture of Gauchos, pilgrims, bandits and conquest, and is heralded as a romance of unusual force and spectacular appeal. The scenes are laid on the South American border in the pampas countries. Picturesque riders and vast herds appear, and there is a whirl of fierce conflict and plot suspense. The capture of the rich shrine city under the nose of the dictator of the country begins the story proper, following a spectacular prologue.

In the cast are Lupu Velez, as a wild mountain girl; Eve Southern, as "the girl of the miracle"; Gustav von Seyffertitz, the usurper; Michael Vavitch,

his lieutenant; Charles Stevens, a Gaucho aide; Nigel de Bruiler, the padre; Al MacQuarrie, a beggar; Fred de Silva, a cavalry officer, and Carlotta Monti, a dancing girl.

## "KING OF KINGS" HERE ON MONDAY

Cecil B. DeMille's "King of Kings," coming to the Ceramic theatre for three days, starting Monday night, April 16, recently closed a capacity nine months on Broadway, New York, where it has crowded the Gaiety theatre and its tremendous electric sign made Broadway and 42nd street the most brilliantly lighted spot in America. Those who enjoyed the filming of "The Ten Commandments" by DeMille, have even a greater treat awaiting them in this work which is based on the New Testament narrative. This presentation at the Ceramic theatre will mark the first showing of this film in East Liverpool and the only showing in this city or surrounding territory during the season of 1927-1928.

## Sebring

Two Sebring men, Otto Green and Stanley McDermott, were sent to the Canton workhouse Wednesday to begin 30-day sentences as a result of their arrest in East Alliance a week ago. The two were arrested by Deputy Sheriff Harry St. John, who charged them with intoxication and trespassing on the property of the Alliance Pottery and Glass company.

John Boziski, East Alliance, was fined \$100 and costs in Justice F. O. Brooks' court Tuesday evening after pleading guilty to a charge of possession of intoxicating liquor. Boziski was arrested by Deputy Harry St. John, who found a quantity of alleged whiskey and beer in his possession.

Miss Lydia Miller of Sebring entertained the Recherche club at her home Tuesday evening. This club is composed of Sebring and Alliance members. Bridge was the diversion. Mrs. Ray Henry won first honor. Miss Eleanor George of Alliance was a guest. Lunch was served by the hostess. The next meeting will be held with Mrs. Mary Miller, Skunk avenue, Alliance, in two weeks.

Twenty-five Holly Rebekah lodge members went to Valley Tuesday evening and attended a meeting of the lodge at the home of Mrs. Ernest Turner. Wednesday evening the Holly Rebekah lodge initiated three candidates at a meeting in the Odd Fellows' hall.

Four birthdays were remembered at an Easter dinner given Monday noon at the Limoges China plant. There were 20 people at the dinner. The hon-

or guests were Mrs. D. Strain, Mrs. S. Smith, Mrs. E. Bransich and Mrs. H. Clapsaddle.

Mrs. Lyle Painter, East Vermont avenue, entertained the Rosetta Beck Missionary society of the Methodist church at the home Monday evening. Edwin Zepernick, son of Mr. and Mrs. Jason Zepernick, who has been in the Alliance City hospital for two weeks, has been removed to his home.

Mr. and Mrs. Albert Mellor of Detroit, Mich., has concluded a visit with Mr. Mellor's parents, Mr. and Mrs. William Mellor, Marland avenue, West Ohio avenue.

Mr. and Mrs. Harry Smallwood of Minerva visited at the home of Mr. and Mrs. Anna Beebout, West Georgia avenue, Tuesday.

Mrs. Frank Hinkle, West Oregon avenue, left Wednesday for Belmont to visit relatives.

# EAST LIVERPOOL VISITOR LAUDS WORLD'S TONIC

Suffered With Catarrh of the Head For Long Time.

Head Is Clear of Mornings  
Now and Feels Better  
In Every Way

"I want two more bottles," said Mr. R. E. Hogue, of Conway, Pa., as he walked into Carnahan's drug store the past week.

"I have used only one bottle of World's Tonic and it is the best thing for my catarrh I have ever found and I am only too glad to give it my endorsement.

"This catarrh has had me in its clutches for a long time and I have spent many a dollar on so-called catarrh medicines. Every morning would get up with my nose and head all choked up with mucus matter and would require fifteen or twenty minutes of hawking and spitting to clear it out. All during the day mucus would drip down my throat and had to hawk and constantly be clearing my throat to keep this mucus from going into my stomach. Was becoming uneasy, as some of the mucus I spit up was tinged with blood and was fearful that it might affect my lungs. Suffered also with pains in

back of my head and heavy dull feeling in front part about twice each week. My breath was offensive and my stomach was all out of sorts most of the time.

"I had used many kinds of medicines before, as I stated, some that you apply right in your nose and throat, but they didn't do me much good. In fact, nothing I ever tried helped me very much until I started World's Tonic. This first bottle is relieving my catarrh entirely. I want two more bottles to carry home with me as my wife and I leave tomorrow.

"I spit up very little mucus now and I'm glad to say there are no signs of blood. My head of mornings is clear as a bell and my stomach is giving me less trouble every day. World's Tonic is giving me relief and when I get entirely rid of my catarrh I will be well paid for my visit to East Liverpool as here I found World's Tonic.

Let the World's Tonic man at Carnahan's drug store explain just how World's Tonic should be used to obtain the best and quickest results.

Sold by Carnahan's, also C. N. Brannan's, Wellsville and all other good druggists. (249)

# OCEAN VESSELS IN RADIO CHAIN TO AID FLIERS

Cunard Line Officer  
Schemes to Cut Casualty List.

PLAN IS SIMPLE

Ships Would Transmit  
Weather Reports in  
Their Zones.

LONDON.—With the object of reducing the casualty list of those who attempt to conquer the Atlantic ocean by air, Lieut. Donald MacMillan, an experienced navigating officer of the Cunard Line, has planned a scheme whereby Atlantic shipping would act as one unbroken chain of organized "radio advisers" to airmen making Atlantic flights.

Lieut. MacMillan's plan is simple in principle and it is believed would be practicable provided the necessary co-operation was forthcoming.

Under a pre-arranged scheme, ships would appoint a "plotting" ship for each 10 degrees of Longitude across the ocean when a flight was begun. At each hour (Greenwich Mean Time) the "plane" would transmit a call sign. All ships in a position to do so would observe its bearing by directional radio.

Weather Reports. Then they would transmit data, including weather reports, to the plotting—or main ship—in their zone, and the navigator of the plotter would collate the reports and transmit them to the airmen. The "plane" would thus be guided throughout its journey.

Lieut. MacMillan has approached the biggest navigating and shipping concern here to act as a coordinating body in the organization of his plan. This company is in touch with hundreds of navigators serving in Atlantic vessels.

"Provided the cooperation of all concerned were obtained the scheme could be offered to any airman who asked for it," Captain Coombs, manager of the insurance company, told International News Service. "It is not anticipated that the position will be obtainable at every hour, nor is it certain, owing to technical difficulties that a plane could receive such information should it be available.

Would Be Useful. "But a great deal of useful work could be done. Correct information on the direction of the prevailing swell, for instance, would enable the airmen to verify his course.

"The scheme would cost the shipping companies nothing, and might easily save them thousands of dollars by preventing the deviation of their vessels unnecessarily in the search and rescue work of Atlantic airmen.

"A scheme of cooperation between seamen and airmen will eventually be organized and controlled, I think, by the governments concerned, but private enterprise will be necessary to set it going."

# Stolen Idols

A Romance of the Sea  
By Frank L. Packard.

Bob Kingsley laughed suddenly in a low, hard way. A question of sticking his head into the lion's mouth? Perhaps, yes; perhaps, no. He had not forgotten that Chen-shu and the four men with him were not the only ones who had been on Hsi Yan's junk that night at Kalawa—and that he, Bob Kingsley, had set out to run them all to earth. What he now proposed to do would most certainly induce Chen-shu's other associate to show their hand, whether Chen-shu ever got back from Aoru or not. That was all he asked, and it would become, then, a question of who could play the craftier game. He had assumed that the headquarters of these human vultures was in Singapore, but whether he was right or wrong in that regard mattered very little. If it were elsewhere, the underworld exchange would still function with the same unholy efficiency. The fact that he was in possession of one of the ivory gods would become known to the men he was seeking quickly enough, and would draw them like a magnet to Singapore from wherever they might be. In any case, and whatever might happen to him personally as the outcome of this play of his to lure his uncle's murderers out into the open, and whether he himself were caught or not in the trap he set for them, Verna at least would be safe. She would be here in Kalawa, a two days' sail from Singapore. No one would know where she was, and Crowley and his wife would be only too glad to have her stay with them. There wasn't any question about her welcome. The Crowleys were the soul of hospitality anyhow, besides being old friends of both his father and his uncle. He shrugged his shoulders whimsically now. How shocked they would be when Verna accused him of murder.

That was exactly what she would do, of course. She was as hard as adamant. Not once had she unbent in the last ten days. The man that she believed had murdered her brother was—her brother's murderer. It began and ended there; that was where he stood in her eyes, that was the sole category in which she placed him. If, when she was on deck, he had persisted beyond a civil word of greeting she had immediately gone below. Ten days of it!

There was wistfulness in his eyes now, pain in the lines around his mouth. Life was a queer paradox! Every little mannerism of hers he knew—and loved. For hours at a time, unobtrusively, unknown to her, he had watched her when she had been on deck. That trick of hers—with head thrown back a little, inviting the breeze to caress the uplifted face and bare white throat! The sunlight playing joyously on the burnished hair! The eyes of her—as blue as the sea itself! And always in the moonlight she was like some cherished vision enticed out of the land of dreams to live before him again, vivid and real and existent, as all dreams are while they endure—and as unreachable, as unattainable as the dream itself!

She was as hard as adamant. His hands gripped the schooner's rail tightly. Well, that was one more reason why she should not go to Singapore! Her first act there would undoubtedly be to go to the authorities and demand his arrest—and, temporarily at least, that would very effectively put an end to any effort on his part to dig the rats he was after out of their holes. It was quite true that eventually he might even ask aid from the police himself—but not in the character of an accused or suspected murderer!

His hands gripped tighter on the rail. He meant to be unhampered now, free to play his own game in his own way in Singapore. Every last one of them! He could see his father now in the living-room at Patua as the old man had sat that night helpless in a wheel-chair, his face haggard with grief and fury. He could hear now the story of Hsi Yan being told again. He had promised then to "get" them all—and he would! Or go under, himself! Well, that might happen—but it would be the only reason why he would fail! And he had now even an added incentive to urge him on, and to deny failure at any cost. Verna! The ultimate result, were he arrested on her charge, gave him no concern whatever in so far as being convicted of her brother's murder went. But it would mean that his hands would be hopelessly tied for a time. No one, in the full light of what had happened at Kalawa and later at Patua, would believe anything but what was the actual truth—no one except Verna. Verna, though, would cling to the belief that he was guilty because, in her heart, she fully believed she had as good as seen him strike the blow that had killed her brother. There was only one way ever to convince her of his innocence—and her verdict was the only one he cared about. Once those guilty of the attack on Kalawa were discovered and trapped, and Chen-shu was not only proved to be one of their leaders, it would follow almost as a corollary that Colonel Lyle's murder on the Monotah lay at the same door.

Incentive? Oh, yes, he had incentive enough and to spare! His lips tightened. Let the police handle the whole thing? He had thought of that. It was the road to failure. The police might get Chen-shu, on his, Bob Kingsley's information—but the others, never. The others would scatter at the first hint of danger, and the inscrutable East would swallow them up. He had a thousand chances where the police had one. The vernin he wanted to unearth would not hesitate an instant at joining issue with one man who was so simple a fool as both to invite his own destruction and hand them on a platter, as the trite saying had it, the one thing for whose possession they had already committed two murders. The two ivory idols! Chen-shu had one; he, Bob, had, or rather, would have, the other. It would not take them long to come nosing at the bait, and then—

## CHAPTER 35.

He swung sharply away from the rail, and walked quickly across the deck to where Verna had just appeared from the cabin companionway. He touched his cap—and was conscious that he did it awkwardly.

She eyed him coldly. "Kafan said I was going ashore and that you wanted to speak to me," she said in a level voice. "I did not know we were so near Singapore—nor does this look like Singapore to me."

"It's not," he answered. "It's a place called Kalawa." "Oh!" Her eyes swept the shoreline. "I have always understood from Kafan, though there was no reason why I should have believed him, that I was to be taken to Singapore."

"Yes," Bob Kingsley nodded. "That was my first intention, but—"

"But on second thought you decided it would be unwise," she interrupted caustically. "I wondered at it myself! I would have denounced you there at once to the police."

"I know it," he said—and smiled in an effort to break down her guard. "To be perfectly frank, that is one of the reasons why I am not taking you to Singapore."

"I will do the same thing here!" she told him instantly. "I know that, too—he was still smiling—but Kalawa is a very small place, and there aren't any police here."

She stared at him a moment, biting at her lip. "I see!" she cried furiously. "Of course! But even in Kalawa I could still tell my story if I were left free to do so, and even from Kalawa it would not take long for that story to spread. So I shall not of course be permitted to tell that story—where it would do you any harm. Who is to be my next jailer, then—in Kalawa?"

"There will be no jail or jailer," he said quietly. "You will be the guest of some old friends of mine for a little time."

"Friends! Of yours!" Her eyes blazed disdainfully. "And do you think I will go peacefully to these friends of yours?"

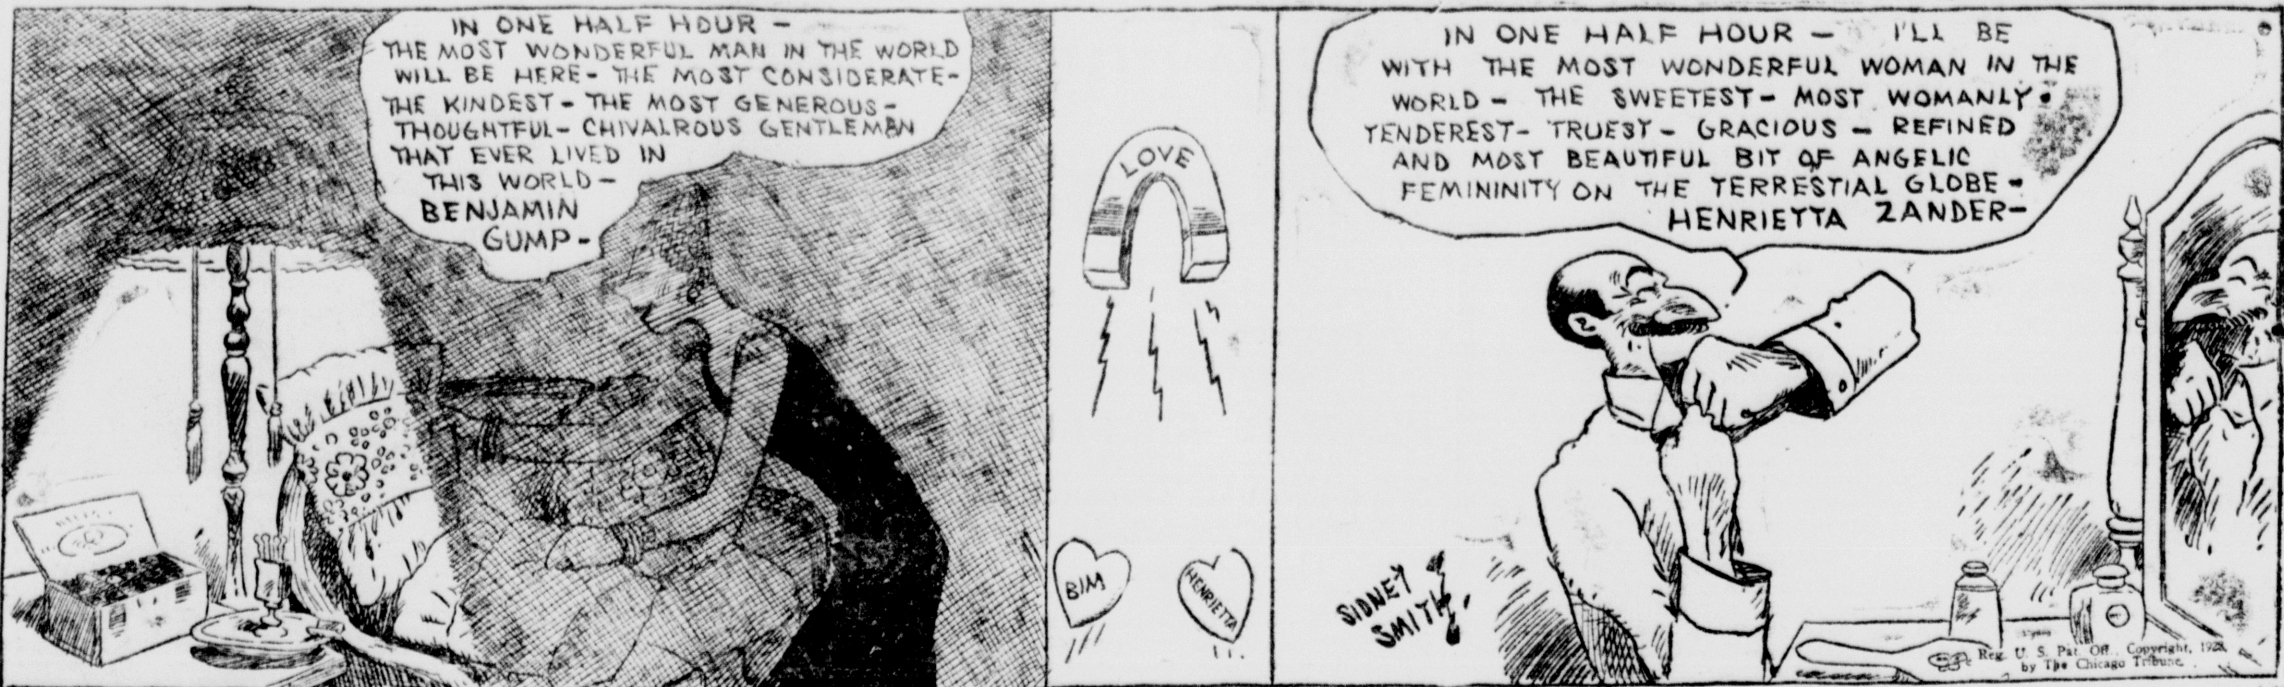

"I should have thought you would have welcomed any change, that would rid you of me," he returned, a sudden bitterness in his voice. "But perhaps you did not understand that I would not remain in Kalawa? As soon as I have put you ashore, I am going on with the Alita to Singapore."

She did not answer. Bob Kingsley turned away for an instant. He was suddenly ill at ease. He did not like what he had to say and do next. She would make a scene, of course. And he would be more the blackguard, more the callous, cold-blooded brigand than ever in her eyes. Well, the sooner it was over the better.

## WOMAN FOILS BOMB PLOTTER

### Explosive Found on East Cleveland Home Porch.

CLEVELAND, April 12.—Police today were searching for the person or persons who last night left a bomb on the front porch of the East Cleveland home of Harry Brooks, head of the H. A. Brooks, Inc., investment service here.

The bomb, which was discovered by Brooks' wife in time to prevent an explosion, had been fashioned out of an army hand grenade. The time pin of which had been removed and the hole packed with a nitro-glycerin fuse, according to East Cleveland authorities.

Police called by Mrs. Brooks about 10 p. m., shortly after the discovery, said the bomb would have exploded within a few minutes. Brooks was away from home at the time. He said he believed the bomb planting was the result of mistaken identity.

## CHANEY RINGS BELL AS SLEUTH

Fantastic shadows, weird apparitions, and the gruesome denizens of the Great Beyond—these are the background for one of the strangest roles an actor has ever been called upon to play—Lon Chaney's part in "London After Midnight," now at the American theatre.

Ghosts, and the grim things known as vampires, or the "un-dead"—corpses that desert their graves at night to prey upon the living, and other eldritch beings of Europe's many superstitions come to life and being in a strange phantasmagoria of horror—creepy, supernatural details of a story that, in its real analysis, sticks to scientific fact. Tod Browning, the author, and also the director, has worked the wildly improbable into latterday fact so skillfully that one almost believes, against his own reason, that such things do exist.

But outside all this—it is one of the greatest screen entertainments Chaney has ever given the silent drama.

"The Man of a Thousand Faces" plays a Scotland Yard detective, detailed to ferret out a stranger plot cloaked behind the shadows of a haunted English manor house. A student of hypnotism and other modern sciences, he pits this strange art against the grim spectres and other superstitious beliefs; and solves a mystery that, when the supernatural is explained away, is a very remarkable scientific exposition of the craft of the modern investigator of crime. It is the last word in detective stories.

### Bell Ringers Hold Big Festival at Croydon Foundry

LONDON—More than two thousand bell-ringers from all parts of England gathered at the Croydon Bell Foundry near here for the All-England Ringers' meeting, one of the greatest festivals of its kind ever held. The Archbishop of Canterbury and

the Bishops of Gifford, Winchester and Rochester were among those present. The meeting was held in the foundry where the largest bell in the world, weighing 19 tons, was recently cast for New York.

There are about 15,000 expert bell-ringers in England, and all belong to

guilds and county associations, membership to which can only be granted by proficiency.

One feature of the meeting was a selection played on a carillon of 23 bells, which included a 3½ ton brass bell cast for a church in Minnesota.

### 1,000 Year Old Biscuit is Found In New Mexico

DENVER.—A biscuit which is estimated to be 1,000 years old was re-

cently received by Dr. Etienne B. Renaud, head of the University of Denver department of Archeology from Dr. Frank H. H. Roberts, author and historian of New Mexico. The biscuit was found by Dr. Roberts in a pueblo near Aztec, N. M. These ruins were abandoned between 1,100 and 1,300 B. C. according to Dr.

Renaud. The biscuit was brown in color and as light as a feather after surviving ten centuries in the dry atmosphere of the southwest. The bit of the ancient food will be given to the chemistry department of the University in Denver in order to determine whether there is any food value remaining.

### \$618 IS ASKED IN AUTO CRASH

Morrison-Cawood Suit is Heard by Jury.

Damage action of Douglass P. Morrison, Sr., 1015 Riverside avenue, Wellswood, against Lester Cawood, Maplewood, growing out of an automobile collision, near the George Persohn residence, Campground road December 27, 1927, was started before a jury in municipal court today.

Morrison is seeking \$618 for damages alleged to have been done to his machine, which was being driven by his son, Douglass Morrison, Jr., 21, at the time of the crash. The plaintiff charges that Cawood driving a Buick roadster, was traveling at a

"high and dangerous rate of speed" on the left side of the road, when his car skidded into the Morrison machine, causing it to overturn.

Hill & Davidson are representing the plaintiff while W. H. Vodrey and Crawford & Cochran are counsel for the defendant.

## PUT SILKS and WOOLENS in the family wash when you use WERKO

You know somebody would make a soap like this some day—

**Flaked**, for quick suds.

**Pure**, for safety to all fabrics and colors.

**Rich**, for quick-cleansing, lasting suds in hard or soft water.

**Economical**, so you can afford to use it for everything.

You can tell that Werko is made of better materials by the fresh clean smell of Werko flakes and of everything that's washed with them.

You can tell it's harmless by its gentle effect on your hands.
